

VERSA IR SENSOR

The Versa IR Sensor is designed to integrate perfectly with the Versa range of aluminium profiles, offering touch-free control of your lighting.

Using intuitive hand gestures, you can activate, deactivate, or adjust your LED lighting without the need for physical switches.

Fully compatible with Sensio, Polar X, Sigma X, and Primo X, LED flexible strip lights, the sensor installs effortlessly with a push-fit mechanism, while the ergonomic connector ensures a quick and reliable connection to flexible strips.

BENEFITS

- Hands-free lighting control
- Enhanced hygiene
- User friendly set-up
- Compatible with Polar X, Primo X, and Sigma X flexible strips

TECHNICAL SPECIFICATION

Voltage	24V
Function	Swipe = On/off
	Swipe and hold = dimming
Cable Length	2500mm
Operating temperature	-30°C to +45°C

KEY FEATURES

- Purpose-built for Versa aluminium profiles
- IR (Infrared) gesture recognition technology
- Simple push-fit installation
- Ergonomic connector for easy strip insertion
- Compatible with multiple LED strip ranges (Sensio, Primo, Sigma, Polar)
- Sleek, compact design to blend with profiles
